

Are you bill?

General instructions

- Work with PyCharm.
- It is recommended to 'play around' with the Python interpreter.
- Adhere to conventions.
- Check your solution before handing it in.

Are you bill

The book 'Think Python' tells us: Run this code and do the exercise according to the instructions printed. Well, why not?

```
import urllib

conn = urllib.urlopen('http://thinkpython.com/secret.html')
for line in conn:
    print line.strip()
```

Good luck!
